## PERSONAL PROJECTS

React Library Management System: (12/2023 - 01/2024)

- Utilizing React for front-end development and Node.js with Express.js for back-end functionality, this project aims to elevate book management. Through seamless integration, we're creating a dynamic platform for cataloging, organizing, and accessing books.

Editfolio: Tailored Portfolio Website for Video Editing Client (02/2024 - 02/2024)

- Developed 'Editfolio', a bespoke portfolio website for a video editing client, employing advanced HTML, CSS, and JavaScript techniques. Leveraging modern web technologies, including responsive design and interactive elements, the platform showcases the client's video editing expertise in an engaging and visually captivating manner.

Web3 TokenForge: Empowering Decentralized Finance (02/2024 - 03/2024)

- Designed and deployed a personal cryptocurrency token on the Web3 blockchain, showcasing expertise in decentralized finance (DeFi) and blockchain technology.
